C8 Expropriated

When Sinti and Roma families were deported, everything they owned was confi scated by the local authorities. Their houses were destroyed, and their horses and carts sold. The proceeds were used to pay the guards at the camps. After the war, the survivors were never compensated for the loss of their property

Did you know

... that in the Austrian province of Burgenland alone more than 1,350 Roma and Sinti homes were destroyed between 1939 and 1945?
... that when the survivors of the concentration camps returned, they had nowhere to stay and had to beg the local authorities to let them sleep in barns and stables?

Your task

What does the document tell you about the possessions and the living conditions of their former owners?
